November 1, 2007

RE: Octtel Communication Co., Ltd.

FCC ID: VP5OR222W

I have a few comments on this application. Depending on your responses, kindly understand there may be additional comments.

1. Test report:  
Please re-confirm if the signal level of carrier frequency 2412 and 2462MHz shown at band edge emission test on section 5 is correct .
2. Operational Description:  
Please provide operational description explaining the circuit function of this device.  
Please refer to FCC rule part 2.1033(b) (4) as follows:  
"2.1033 (b) (4) A brief description of the circuit functions of the device along with a statement describing how the device operates. This statement should contain a description of the ground system and antenna, if any, used with the device."

George Chen  
Chief Technical Officer - Asia

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
